

THE YELLOW FEVER

NO LET UP OF THE DISEASE IN THE INFECTED CITIES

Spreading to New Sections of Mobile and New Orleans—Thirty New Cases in the Latter City Yesterday—Seven New Cases at Mobile and Two at a Point Twenty Miles From That City—Cases of Black Vomitus at Edwards—Mobile to Start Committee of Relief for the Poor

Mobile, Ala., October 1.—The increase in the number of cases continues slow, there being but seven cases reported today. There was one death, Mrs. A. Hoff, man, on Seventh street, near Jefferson. The record is: Total cases 81, deaths 12, discharged 40, under treatment 23.

Mrs. Gillman and Miss Cohen are sick in the house where Taylor, one of the first yellow fever victims, died. The case of Miss Hetter, on Jackson street, announced yesterday, is traced to the same place. Miss Cohen, who was an inmate of the house, visited Miss Hetter for several hours, just after Taylor died. The case yesterday on state street, near Kennedy, is that of a man who was a guard in the infected district. He has carried the infection to the northwest part of the town where many of the poorer people dwell. Thus are established two additional foci of infection.

The Commercial club has called a meeting of the board of health for tomorrow to form a relief committee to assist people thrown out of employment. There is much being done for the poor, the mayor leading in relieving the sufferers who apply for aid, but there are many persons who will not apply or who are ignorant of the help that is available.

A suspicious case is reported tonight in the heart of the city. G. F. Steiner, keeper of the Delicatessen restaurant, living on St. Emanuel street, near Dauphin.

Dr. Edwards, at St. Elmo, twenty miles south of Mobile, on the Louisville and Nashville railroad reports four suspicious cases which he diagnosed as yellow fever. A suspicious case is reported at Grand Bay, on the same line. Health officers have gone to investigate these.

Mobile board of health has issued orders that no person shall move out of the infected district into any other part of the city. It is sought to prevent ejection for non-payment of rent.

New Orleans, La., October 1.—Today was again something of a record breaker in the matter of new cases. They cropped up in all directions, but up to 6 o'clock the death record was still low. The fever is rapidly spreading in many directions, but the large majority of cases are proving to be of a harmless type. The weather is warm and the conditions excellent for new cases. But the death percentage has fallen considerably below the record of 1878. Today there were twenty-seven new cases recorded and four deaths. The most important new case is Dr. Beverley Warner, the pastor of the rich Trinity church. His case is a mild one. Rich and poor alike have been stricken today, and the board of health reports seem to show that the best drained and kept streets are presenting cases as numerous as those which are minus of sanitation.

The authorities continue to keep the water plugs open and every gutter is filled with running water. A number of cases, some ten or more were discharged today as cured. Today Professor Metz dissected the various houses in which sickness had occurred and where the patients have been discharged.

A bitter fight is being made on the board of health because it is insisting on quarantining inmates of houses in which yellow fever exists and those houses which they adjoin. The fever here has, of course, not been the epidemic, and for that reason physicians are disinclined to report yellow fever. A number of doctors said tonight, in a formal protest, that their names are not to be connected with yellow fever patients, their practice will be ruined. No body would send for them if they have had anything to do with yellow fever.

The official bulletin of the board of health, says: During the twenty-four hours ending 9 p. m., Friday, October 1st, there were: Cases of yellow fever, today 20, deaths 3, total cases of yellow fever to date 258, total deaths from yellow fever to date 20, total cases absolutely recovered 76, total cases under treatment 122.

Ocean Springs, Miss., October 1.—A postal agent was taken off the train at Fontainebleau last night, sick and placed in the camp hospital. Mr. Lewis from Biloxi, is sick at the same place. Dr. Kells, of Scranton, was taken sick today and was brought down to the camp hospital. Two new cases of fever are reported at McHenry today.

Edwards, Miss., October 1.—Dr. Dunn, of the state board of health, tonight gave the Associated Press the following statement: Nineteen new cases have been reported today, of which eleven are white, and eight colored. There were no deaths today. Total cases to date 284, number convalescent and discharged 161, number under treatment 124, number very sick 8, sick with black vomit 2.

Dr. Purnell visited Champion Hill this evening and found a nurse who has been waiting on Dr. Champion, down with yellow fever. The nurse claims to have had the fever in 1878. The cases reported with black vomit today are Mayor J. L. Redfield and his sister, Lillian and Estis Harris, who have had three attacks of black vomit. All are reported as resting easily.

John Griffin, of Zanesville, O., says: "I never lived a day for thirty years without suffering agony until I was cured by De Witt's Witch Hazel Salve cured my piles." For piles and rectal troubles, cuts, bruises, sprains, eczema and all skin troubles We Witt's Witch Hazel Salve is unequalled. R. R. Bellamy.

A Close Bicycle Race

Philadelphia, October 2.—John Frank Starbuck, of Philadelphia, this afternoon defeated Jimmie Michael, "the Welsh wonder" in a twenty-five mile paced race on the one-third mile board track at Willow Grove, by the narrow margin of six yards. It was one of the most exciting middle distance races ever seen here. Starbuck's time for the twenty-five miles was 47 minutes 2 1-5 seconds and Michael's 47:22 2-5. Each man was in the lead three times during the race but neither led by more than forty yards at any time and the race was in doubt to the finish.

Michael led during the first ten miles. Starbuck was in front during the eleven and twelve miles and Michael led on the thirteenth. On the next mile Starbuck again assumed the lead and held it until the twenty-first mile, when Michael took command. From the twenty-first mile to the finish it was a battle royal. In the twenty-fourth Starbuck forged a head and maintained the lead to the end, winning by about six yards.

Both men rode in magnificent form and caught their pacing teams in beautiful style. Each man suffered somewhat in the pacing, chains breaking frequently in the big sextuplets. When these accidents occurred the rear contestant would follow his opponent and use him for a pace marker until he caught one of his own teams. The day was raw and a stiff and chilling north-east wind blew across the track. Notwithstanding this, however, over 8,000 persons travelled to Willow Grove to see the great race.

QUO WARRANTO SUITS

To be Brought by Caldwell and Pearson Against the Wilsons—Question of Salary of the Two Suspended Commissioners (Special to The Messenger.)

Raleigh, N. C., October 1.—Attorney General Walser has issued leave to Caldwell and Pearson to bring quo warranto actions for possession of offices as railway commissioners.

The attorney general has no control power his opinion in the matter of the commissioners would have and replied: "I cite the following opinion by United States Attorney General Brewster which exactly covers the case: The attorney general has no control over a head of a department to whom an opinion is addressed nor could he with propriety express any judgment concerning the disposition of a matter to which the opinion relates, that being something wholly within the administration, sphere and duties of such head of the department."

Auditor Ayer was asked what he intended to do regarding the issue of warrants to the commissioners and replied: "As I see it I will issue the warrants to the two Wilsons up to September 24th and the character of any proceedings hereafter might have some influence as to future proceedings of this department. If bonds can be given to indemnify the state directly against anybody who might draw money for compensation I don't think there would be any hesitancy in paying it."

The state grants a charter to the North Carolina Publication Society, of Raleigh. The incorporators are Josephus Daniels, John C. Drewry, George Allen, J. S. C. Carpenter, H. E. Litchford, T. B. Womack and W. J. Peele. It is to publish books and pamphlets and buy copyrights.

To Establish Long Distance (Telephone)

(Special to The Messenger.) Raleigh, N. C., October 1.—General Meaney, superintendent of the Bell Telephone Company, stated to the railway commission today that it intended to establish long distance telephone connections between every town of prominence in North Carolina and also connection with northern cities and would expend a large sum in the state.

Senator Daniel in a powerful speech this afternoon asserted that a reduction of rate would drive the company out of the state.

It is a mistaken idea that a cough acquired during the warm season need not be regarded seriously. Facts prove the contrary. Do not neglect yourself. A simple and effective remedy is at your hand. Dr. Parker's Tolu Cough Syrup is a quick and agreeable remedy for Cough or Cold, Hoarseness, Whooping Cough, or any affection of the Throat or Lungs. Pleasant to take—Children like it. Sold by J. C. Shepard, J. H. Hardin and H. L. Pentress.

An Epidemic of Suicides

New York, October 1.—Nearly a score of unfortunates met tragic deaths in and about this city today. It was suicide day. No day within recent years has been so replete with tales of weak human nature. Here is the list:

Mrs. Caroline Rivinius, of West Point, N. Y., and her children, Laura, 15 years old; William, aged 11; Albert, 8, and Elizabeth, 5, found dead in the West Shore hotel at Forty-second street and Eleventh avenue, asphyxiated by gas, thought to be murder and suicide.

Harmon S. Burt, of Norwich, Conn., registered at the Devonshire hotel, East Forty-second street, as E. W. Smith, of Providence, R. I., found dead in bed from poison.

A man registered as C. F. K. Royce, San Francisco, Cal., found dead at the Grand Union hotel. A tube through which gas was flowing from an open jet was in his mouth. Nothing was found to indicate the cause of death.

Dr. Robert W. Flagg, a prominent young physician of Yonkers, who came to this city last night with his bride, leaped from the window in his apartment in the Murray Hill hotel this morning, for what reason it is not at present known, fractured his skull and injuring himself otherwise so badly that he died late this afternoon.

Theo. Miller, out of work, killed himself by shooting at his boarding house on Seventh avenue.

Rudolph Knoke, out of work, drank carbolic acid at his home on East Fifty-eighth street and died an hour later.

At White Plains, Edward L. Hafner and Frank C. Holly, of Norwalk county, the former a cigar merchant and the latter in the employ of a druggist supply company, were found dead in their apartments, asphyxiated by gas.

At a picnic in the outskirts of Brooklyn, William Klynger killed John McNally by a blow with his fist. It was in a fight and Klynger's skull is said to be fractured.

Mrs. Bertha Hummel died in the Seney hospital in Brooklyn from the effects of carbolic acid which she took while despondent this morning.

Julia Cutto, of Brooklyn, worn out by family troubles, ended her life tonight in a draught of carbolic acid.

George Martin, serving a sentence for burglary in the Kings county penitentiary, cut his throat this afternoon with a piece of glass, part of a broken lamp chimney, and cannot recover.

Michael Walsh was found dead at the Fulton hotel, from the effects, it is believed, of drugs.

Burning, itching skin diseases instantly relieved by De Witt's Witch Hazel Salve, unequalled for cuts, bruises, burns, itching, itching without leaving a scar. R. R. Bellamy.

Getting Too Near Home

(From Answers.)

A Yorkshire socialist, explaining to a friend the principles of socialism, remarked that all possessions should be shared equally.

"If you had two horses," said the friend, "would you give me one?"

"Of course," replied the socialist.

"And if you had two cows, would you give me one?"

"Of course I should."

"Well, supposing now," said the friend slowly, "you had two pigs, would you give me one of them?"

"Eh! tha's gettin' ower near home," said the other slyly; "tha knows I've got two pigs."

THE MAYORS' CONVENTION

Labor Organizations Endorsed—Mayor Wright, of Wilmington, N. C. One of the Vice Presidents—Signs of Discord

Columbus, Ohio, October 1.—The League of American Municipalities, this morning passed a resolution, introduced by Hon. Albert J. Boardman, of Tampa, Fla., favoring an investigation of water, gas and electric lighting works, for the purpose of enabling citizens to determine whether there is any economic advantage to consumers in the municipal ownership and operation of such works.

Among the resolutions passed during the closing scenes of the convention was one offered by Alderman Lowery, of Poughkeepsie, N. Y., endorsing the efforts of organized labor and requiring that the published report of the league's proceedings and addresses bear the Typographical labor label and that all of the notices and printed matter for this national body should, as far as practicable, bear the Typographical Union label and be performed by persons and firms employing and recognizing union labor.

Under a provision of the constitution adopted by the league yesterday, President McVicar has named vice-presidents from each state represented, Mayor S. P. Wright, of Wilmington, being appointed for North Carolina.

Mayor Johnson, of Fargo, N. D., called on Mayor Black, of Columbus, and in a few words of praise for the city, its mayor and an expression of hope for the welfare of the convention, presented Mayor Black with a complete set of Allen Ripley Foote's works against "Municipal Ownership." The mayor thanked the convention for the gift.

In an interview this afternoon Mayor Black said that the election of B. F. Gilkinson, as secretary, had created a great deal of dissatisfaction among the mayors and he was very afraid that it was a fatal mistake.

Mayor Quincy is quoted by Mayor Black as saying that the convention made a great mistake yesterday, and that it would result in the formation of an antagonistic society which would be limited to the officials of the larger cities, beginning with those of the size of Columbus and taking in those of a greater population.

The board of trustees will fix the date of the next annual meeting.

Why not profit by the experience of others. Thousands of grateful men and women have been rendered healthy and happy by the use of Febricure, (Sweet Chili Tonic with Iron), a skillful combination of the most approved remedies, which will promptly cure any case of Chills and Fever. It is sold by reputable dealers, who will not ask you to try inferior articles for the sake of extra profit. Guaranteed cure or money refunded. Sold by J. C. Shepard, J. H. Hardin and H. L. Pentress.

The Spanish Queen Opposes a General Election

Madrid, October 1.—Marshall Martinez Campos was in conference with the queen regent today for an hour and a half. He expressed the opinion that a change of policy was possible with the present chamber if the majority supported the new cabinet's economic measures and attitude toward the colonies.

After the queen regent receives Senator Sagasta and Senor Pidal, president of the chamber of deputies, tomorrow, she will make a short trip to the frontiers today expressed a desire to retain, if possible, the present chambers, believing that a general election would have a disturbing effect. For this, however, a conservative cabinet would be necessary. None of the liberals is inclined to accept office, as they would only find themselves at the mercy of conservative chambers. General Campos has been endeavoring to effect arrangements whereby the chambers might be retained in case the liberals were to take office, but so far he has been unsuccessful.

During the conference of leaders of the dissident conservatives with the queen regent, Senor Silveira declared that in view of the difficulties in the way of dissolution it would be best to retain the conservatives in office under the leadership of Campos and he said that on the assumption that the cabinet would receive the support of all elements, a majority of his own section would give enthusiastic support.

Senor Sagasta says he is willing to undertake the construction of a cabinet, and it is hoped that the crisis will be solved tomorrow.

Fayetteville's Artesian Wells

The Fayetteville Observer of Friday says:

"Captain Wright and Mr. Novitzky have done our community a great service in demonstrating that it is possible to get the very finest of water within the limits of our town at a depth of 200 to 237 feet. Numbers, many sending from a distance, get their drinking water from one or the other of the three wells so far bored. Those who use these waters declare that they banish dyspepsia completely. Captain Wright has gained 13 pounds, Captain E. P. Powers nearly as much, and others more or less, since beginning to use the water a few weeks ago. Messrs. Wright and Novitzky have the machinery and are prepared to bore wells successfully throughout this section. They should be patronized in preference to parties from a distance."

Hart's Essence Ginger quickly cures Summer complaints caused by changes in drinking water—Climate changes—Nausea, Diarrhoea, Dysentery, Cholera Morbus, Nausea, Vomiting, Flatulency, Cramps, Colic and all internal pains. Sold by J. C. Shepard, J. H. Hardin and H. L. Pentress.

VICTIM OF ASSASSINATION

Clark Dies of His Wound—Gathering of Colored Notables—Needed Reforms in Court Proceedings (Correspondence of The Messenger.)

Fayetteville, September 30. Frank Clark died last night of his injuries, and the secret history of his assassination is probably buried with him; for the police believe firmly that he knew his whereabouts on that night up to 1:30 o'clock, but where he went, or what he did, from that hour, when he left the Atlantic Coast Line coal chute, half a mile distant, to 4:30 o'clock, when he reached his door, is involved in mystery.

Bishop Hood's "Silver Anniversary" gave very gratifying evidence of the nature in which he is held by his church and people, while the services of the three or four days developed a high order of ability in the dignitaries of his religious denomination. Evans Chapel was crowded during the exercises, many whites forming part of the congregation.

In the two most important cases tried in the superior court last week—Holmes charged with murder, and Simpson charged with rape—verdicts of acquittal were rendered. No one can follow the proceedings of a court convened for the disposal of criminal business without being impressed with the fact that the public recital of testimony in certain cases is an outrage upon decency—an unwarrantable gratification of the prurency of court idlers, and a pernicious source of demoralization. All such evidence should be taken before a jury with closed doors. The court house is the temple of justice, the property of the people, but not on this account should it be a school for scandal, a hotbed of obscenity, to pollute the minds of the young.

The Fayetteville chamber of commerce recently promised that cotton growers should find a top price for their staple in this market, and buyers are faithfully redeeming this pledge. We are giving the very utmost that the "law allows," but, all the same, the price seems to have broken all to pieces. When the crop gets out of the hands of the farmer and into the grasp of the speculator, it will go up. The Holt factory village is abundantly blessed with religious advantages. Besides the Presbyterian church, of which mention was recently made, a Baptist church is approaching completion.

Mrs. John B. Broadfoot leaves today to spend a short time with friends in Raleigh. Miss Mary Oliver, of New Bern, who has been visiting her sister, Mrs. B. R. Huske, returned home yesterday. Mr. Walter Hanks, of Pittsboro is pleasing his many friends by a short stay with us.

Your Mr. Crews was shaking hands with Fayetteville friends and patrons yesterday. Like the bad boy, he is perhaps at rest when he is asleep.

"They don't make much fuss about it." We are speaking of De Witt's Little Early Risers, the famous little pills for constipation, biliousness, and all stomach and liver troubles. They never gripe. R. R. Bellamy.

Hester's Cotton Report

New Orleans, October 1.—Secretary Hester's statement of the world's visible supply of cotton, covering European ports, amounting for European ports and interior towns in the United States, gives 1,463,281 bales, against 1,233,533 last week, and 2,104,922 last year. Of this 1,290,921 is American, against 1,062,533 last week and 1,827,822 last year. There is an increase compared with last week of 230,388 and a decrease compared with last year of 641,001.

Secretary Hester's monthly statement gives the largest movement of cotton into sight for September on record, except that of last year, when the total round figures 179,000 bales behind last September and 527,000 ahead of year before last. Receipts at ports for the month were 77,407 bales, against 918,465 last year; overland 37,093, against 55,669 last year; southern mill takings 96,070, against 91,570 last year; interior stocks in ports at month end September 1, 189, against 1,579,723 last year; total in sight for September 1,061,939, against 1,241,427 last year.

American mills took 249,820 bales, against 249,301 last year. Foreign exports were 233,894, a decrease under last year of 90,172. Stocks at the seaboard and twenty-nine leading southern interior markets at the close of September were 635,779 bales, against 946,698 last year. Including stocks left over at ports and interior towns, and the new crop, the supply to date is 1,178,493, against 1,579,723 last year and 844,749 the year before.

Secretary Hester's statement for the weekly movement gives the total brought into sight as 363,432 bales, against 409,062 last year.

The Situation in Hawaii

Washington, October 1.—Admiral Birdseye, who has been in command of the Pacific station for three years past, returned to Washington today and called upon Secretaries Long and Sherman. With the latter he went to the White house and called upon President McKinley. The admiral in a short time will make an informal report to Secretary Long, giving his views and opinions of the Hawaiian situation and such information as he has gained during long stay at the islands. The administration is anxious to have a general review of the condition of the islands from such an experienced and intelligent source as Admiral Birdseye. Speaking of the reported opposition to annexation, the admiral said today that it amounts to little. The substantial business interest of the islands, with few exceptions, he said, favor annexation. These exceptions may be able to work up some opposition among the natives, but nothing of any consequence, in his opinion, can come of it. The interest of some persons in annexation is, he said, apathetic, but they accept it as the best born of a dilemma.

AT THE UNIVERSITY

Four Hundred and Sixty Students Present—Our Governor in Demand—Robert Hancock Re-elected President of the Atlantic Railroad

(Special to The Messenger.) Raleigh, N. C., September 30.—The number of students actually present at the university today is 460, which breaks all records there.

Governor Russell is invited to open the Winston Tobacco Association's fair November 3rd, to participate in the parade and to be the guest of the association. He is also invited to open the colored state fair at Raleigh November 2nd.

Secretary of State Sherman sends the Governor a formal invitation for this state to make an exhibit at the Paris exhibition in 1900 in accordance with the act of congress inviting all the states to participate.

The council of state agree to lease to Raleigh for seven years its granite quarry half a mile east of the city. It was from this quarry that stone used in building the capitol was taken.

Judge Ewart was here today to see the governor, as he says, on semi-public business.

Robert Hancock is re-elected president of the Atlantic and North Carolina railroad, D. M. Staunton secretary and treasurer. A semi-annual dividend of 1 per cent is declared.

Judge VanWyck, nominated by Tammany for mayor of Greater New York, is a brother-in-law of General R. F. Hoke.

Don't nauseate your stomach with teas and bitter herbs, but regulate your liver and sick headache by using those famous little pills known as De Witt's Little Early Risers. R. R. Bellamy.

Convention of Democratic Alliance of New York

New York, October 1.—At the city nominating convention of the democratic alliance of Greater New York, held tonight, Henry George was unanimously nominated for mayor. The nominating speech was made by Charles Francis Adams. The nomination was greeted with enthusiastic applause. The platform in part follows:

"The democratic alliance is a body of democrats loyal to the policy of the great democratic party. Our aim and object was to find a basis for united action of all democrats in the pending municipal contest. We deemed it essential that the democratic party of Greater New York should re-affirm the Chicago platform, pledge itself to the policy of municipal ownership and operation of franchises and to the principle of direct employment instead of the contract system.

"We insisted that the candidate for mayor must be a man whose character and acts in the past as well as the stand he took during the last campaign offer the strongest guarantees for his faithful adherence to this policy. We took steps at the proper time and in due form, to apprise the organization which pretends to stand for true democracy, of the position of the party and of our firm purpose to maintain it. Patiently, yet watchfully, we awaited the result.

"The action of the city convention of September 30th is clear to all men. Tammany and her allies hide away the national banner of democracy and are ashamed to march under its folds. The Benedict Arnolds of last fall who deserted to the enemy on the eve of battle are to be restored to places of honor and friendship; the franchise grabbers are to retain their clutch on the city's highways, by Tammany's aid and connivance. Thus Tammany and her allies separate themselves in principles and policy, from the great democratic party of the nation and must be looked upon solely as a local body of unprincipled spoils hunters, unfit to sit in the councils of the party whose doctrine they ignore and whose honor they betray.

"It becomes our solemn duty to lift up the flag of true democracy, and to appeal from faithless and treacherous leaders to the rank and file of honest democratic voters."

The platform also declares in favor of municipal home rule, municipal ownership and operation of franchises, 3 cent railway fares, \$1.00 gas, eight hour day and prevailing rate of wages, representation of labor in administration and legislative branches of the city government, free and open air places for the holding of public meetings and opposition to government by injunction.

A conference committee was appointed to confer with all others in sympathy with the Henry George movement and to arrange for a mass meeting. Then the convention adjourned until next Monday night.

Our most eminent physicians prescribe "Hart's Emulsion of Cod Liver Oil" with Croscote and the Hypophosphites. Sold by J. C. Shepard, J. H. Hardin and H. L. Pentress.

Reliable News From Cuba

New York, October 1.—A New York merchant who has extensive business interests in Cuba and is kept informed of the progress of the insurrection by trustworthy correspondents in different parts of the island, received word today that Colonel Baldemero Acosta, of the insurgent army, has safely landed in Vera Cruz. He is seriously wounded. His wife is with him. According to the merchant's correspondence, the insurgent colonel was enabled to escape with the connivance of Spanish officers. The correspondent also states that the recently reported capture of a Hotchkiss gun, a lot of war material, and ammunition was founded on these facts: A Spanish gunner, who had been with the insurgents in Tampa, Fla. turned out to be a spy. He informed the military of the location of the place where the Cubans had buried a 12-pound Hotchkiss gun which had been landed in Pinar del Rio about ten months. It had never been dug up because in landing, it had been so injured as to be rendered useless. On the finding of this abandoned gun was based the official report of the capture of the valuable war munitions and the American volunteers. The correspondent concludes by saying that the insurgents were never stronger than they are today, from the extreme east to the extreme west.

It heals everything except a broken heart, may be said of De Witt's Witch Hazel Salve. Piles and rectal diseases, cuts, burns, bruises, tetter, eczema and all skin troubles may be cured by it quickly and permanently. R. R. Bellamy.
